

<b>COURSE NAME / CODE</b>		BTEC National Subsidiary / Diploma / Extended Diploma in IT	
<b>UNIT(s) No / Name</b>		29 – Installing and Upgrading Software	
<b>LEVEL</b>	3	<b>Assignment No &amp; Title</b>	2 – Know how to prepare for a software installation or upgrade

<b>LECTURER/ASSESSOR</b>		Gargi Gupta	
<b>ISSUE DATE</b>		22.11.16	<b>DEADLINE DATE</b> 9.12.16
<b>SUBMISSION DATE</b>			
<b>RESUBMISSION AUTHORISATION</b> BY LEAD INTERNAL VERIFIER*			<b>AUTHORISATION DATE (BY IV)</b>
<b>RESUBMISSION DATE**</b>			

\*All resubmissions must be authorised by the **Lead Internal Verifier**. Only **one** resubmission is possible per assignment, providing:

- The learner has met the initial deadlines set in the assignment, or has met an agreed deadline extension
- The tutor considers that the learner will be able to provide improved evidence without further guidance
- Evidence submitted for assessment has been authenticated and accompanied by a signed and dated declaration of authenticity by the learner

\*\*Any resubmission evidence **must** be submitted within 10 working days of receipt of assessment

### Student declaration

*I declare that this assignment is all my own work and the sources of information and material I have used (including the internet) have been fully identified and properly acknowledged as required.*

<b>STUDENT NAME</b>	<b>SIGNATURE</b>

### ASSESSMENT DETAILS & GRADING CRITERIA

(NB: Columns 1 & 2 of the table below will be completed once the assignment has been submitted) Please note that criteria & evidence should be aimed to give the learner the maximum grade available within their qualification (i.e. A, Pass, Distinction)

Learning Aims Covered									
L02		Know how to prepare for a software installation or upgrade							
L03		Be able to install or upgrade software							
L04		Understand the completion and handover process							
GRADING CRITERIA FOR TASK		EVIDENCE	1) EVIDENCE SEEN		2) CRITERIA MET				
			Y	N	Y	I	N	IV	
P3	Plan an installation and an upgrade	Task 1. <b>Report on planning</b>							
P4	Record and complete a software installation	Task 1: <b>Report and Videos/screenshots</b>							
P5	Record and complete a software upgrade	Task 1: <b>Report and Videos/screenshots</b>							
P6	Explain the importance of the user acceptance process	Task 3: <b>Report on user acceptance</b>							
M3	Design and implement a procedure to preserve data integrity during an upgrade	Task 1: <b>Report with screenshots</b>							
M4	Design a procedure to back out of software upgrades	Task 2: <b>Report and video/screenshots</b>							
D1	Justify a particular installation or upgrade	Task 3: <b>Report</b>							

**KEY: Y = Yes, I = Incomplete, N = No**

<b>Date:</b>	

Please ensure that this sheet is completed on submission of your assignment.

Please note that your assignment **MUST** have the following (unless otherwise stated):

1. Cover page
2. Contents page
3. Introduction
4. Conclusion
5. Bibliography

#### SCENARIO

As an IT Consultant for **UTC Reading**, you have been tasked with preparing policy documents for installations and upgrades. The purpose of this is to ensure that all future installations and upgrades are correctly managed; anticipating and avoiding issues, mitigating errors and minimising downtime. IT support will then use your documents to guide them in their work.

#### TASK 1 Evidence you must produce for this task.

To achieve the criteria you must show that you are able to:	Unit	Criterion Reference
<p>You are required to write an installation and upgrade document that details installation/upgrade processes and procedures including:</p> <ul style="list-style-type: none"> <li>• Planning</li> <li>• testing</li> <li>• delivery</li> <li>• shipping</li> <li>• software storage locations to be used</li> <li>• specifications of the software</li> <li>• communicating the progress and outcome of the installation/upgrade to the appropriate people</li> <li>• information recording e.g. log books</li> <li>• obtaining access e.g. log-on details</li> <li>• security</li> <li>• confidentiality</li> <li>• contractual requirements as potential constraints to processes</li> </ul>	29	P3
<p>Demonstrate and record how to install a software, restoring your backed up data and ensuring the integrity of the previous applications you had installed. You have to include:</p> <ul style="list-style-type: none"> <li>• Document action during installation</li> <li>• Remember to use the backup procedures to ensure that data integrity is preserved.</li> </ul>	29	P4
<p>Demonstrate and record how to upgrade Windows 2008 to Windows 2010 or similar, restoring your backed up data and ensuring the integrity of the previous applications you had installed.</p> <ul style="list-style-type: none"> <li>• Document action during upgrade</li> </ul>	29	P5
<p>When upgrading software, it is essential that existing data is safeguarded. Design a procedure to preserve data integrity during your software upgrade(P5)</p>	29	M3

**TASK 2 Evidence you must produce for this task.**

Design a procedure to back out of software upgrades. You should consider the following:		
<ul style="list-style-type: none"> <li>Data integrity: e.g. system recovery point; copy of registry data; copy of user data; prior image of hard drive</li> </ul>		M4

**TASK 3 Evidence you must produce for this task.**

Explain the importance of the user acceptance process. Make sure you include:		
<ul style="list-style-type: none"> <li>Configuration to meet customer needs</li> <li>Handover to the customer</li> <li>Customer acceptance</li> </ul>	29	P6
You have to justify a particular installation or upgrade you have done in P4 or P5. you may wish to use some of the points:		
<ul style="list-style-type: none"> <li>Cost</li> <li>Hardware requirements (needs lower spec computer – will it run faster)</li> <li>Security threats</li> </ul>	29	D1

------------------------	---

# P3

- ☐ Report on installation and upgrade :
- ☐ planning
- ☐ testing
- ☐ delivery
- ☐ shipping
- ☐ storage
- ☐ software specs
- ☐ communication
- ☐ logs
- ☐ security
- ☐ confidentiality
- ☐ contractual requirements

# P4

- ☐ Report including screenshots
- ☐ Explanation of chosen setup
- ☐ Inc. configuration
- ☐ Inc. installed programs
- ☐ Inc. saved files

# P5

- ☐ Report with screenshots
- ☐ Discussion on upgrade of operating system

# P6

- ☐ Report
- ☐ Configuration to meet customer/user needs
- ☐ Handover to user

# M3

- ☐ Report
- ☐ Written procedure ensuring data integrity
- ☐ Inc. at least 2 of the following:  
Backup / Restore Point / Image / Registry
- ☐ Documented proof that procedure has been followed in relation to P5

# M4

- ☐ Create a back out procedure
- ☐ Ensure setting of system restore points
- ☐ hard drive cloning
- ☐ uninstall features
- ☐ registry backups
- ☐ Consider data integrity
- ☐ Provide your own backout strategy

# D1

- ☐ Report on justification
- ☐ Cost
- ☐ Hardware requirements (needs lower spec computer – will it run faster)
- ☐ Security threats
- ☐ Corruption – data/system integrity
