General Certificate of Education Advanced Subsidiary Examination January 2013

Computing

COMP2

Unit 2 Computer Components, The Stored Program Concept and the Internet

Thursday 17 January 2013 9.00 am to 10.00 am

| You will need no other materials | |
|---------------------------------------|--|
| You must not use a calculator. | |

Time allowed

1 hour

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 60.
- The use of brand names will not gain credit.
- Question 3 should be answered in continuous prose. In this question you will be marked on your ability to:
 - use good English
 - organise information clearly
 - use specialist vocabulary where appropriate.

| | Answer all questions in the spaces provided. |
|-------|--|
| 1 | A computer system is made up of <i>software</i> and <i>hardware</i> . Explain what is meant by these two terms. |
| | |
| | |
| | (2 marks ₎ |
| | |
| 2 | The data bus, control bus and address bus are three important parts of a modern computer. |
| 2 (a) | In this context, explain what is meant by the term bus. |
| | |
| | (2 marks _j |
| 2 (b) | Fill in the gaps in the paragraph below. |
| | The data bus can be used to transfer data and between |
| | the main memory and the processor. The control bus carries control signals. An |
| | example of a control signal is |
| | |
| | (2 marks) |
| | |
| | |
| | |

2 (c) Figure 1 shows some of the internal components of a computer system.

Figure 1

3

On **Figure 1** label the following components.

Processor, Keyboard controller, Graphics controller

Draw **all** the connections between the address bus and the components. Make sure that you **clearly** show the direction of each connection.

(5 marks)

9

| 3 | When writing a program, a programmer could use an assembly language, a high level imperative language or a high level declarative language. |
|---|--|
| | Outline the major differences in each of these three approaches. For each language type, your answer could include: |
| | advantages and disadvantages compared to other language types how the programmer would express their programs what translation software could be used, if applicable a situation where it might be the most appropriate choice. |
| | In your answer you will be assessed on your ability to use good English and to organise your answer clearly in complete sentences, using specialist vocabulary where appropriate. |

Represent the Boolean equation $Q = \overline{\overline{A} \cdot \overline{B}}$ as a logic circuit by drawing a diagram in the 4 (a) space below using **only** the following symbols:

(3 marks)

Use the following truth tables to demonstrate that $A + B = \overline{\overline{A} \cdot \overline{B}}$ 4 (b)

| A | В | A + B |
|---|---|-------|
| 0 | 0 | |
| 0 | 1 | |
| 1 | 0 | |
| 1 | 1 | |

| Α | В | Ā | В | Ā.B | $\overline{\overline{A}.\overline{B}}$ |
|---|---|---|---|-----|--|
| 0 | 0 | | | | |
| 0 | 1 | | | | |
| 1 | 0 | | | | |
| 1 | 1 | | | | |

(4 marks)

What is the name commonly associated with the statement A + B = $\overline{\overline{A} \cdot \overline{B}}$? 4 (c)

(1 mark)

| 4 (d) | Simplify the Boolean expression below. | |
|-------|--|----------|
| | $A.B.\overline{C} + A.\overline{C}$ | |
| | Show each stage of your working in the space below. | |
| | | |
| | | |
| | | |
| | | |
| | (2 marks) | |
| | Final answer | |
| | (1 mark) | |
| | | <u> </u> |
| 5 | In 1995, a high capacity hard disk drive had a storage capacity of 512 megabytes. In 2012, a typical hard disk drive of the same physical size had a capacity of 1 terabyte. | |
| 5 (a) | Describe the principles of operation of a hard disk drive. | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | (4 marks) | |
| | | |

| 5 (b) | How many times greater is the storage capacity of a 1 terabyte hard disk drive than that of a 512 megabyte hard disk drive? | | | | | |
|-------|---|--|--|--|--|--|
| | Show each stage of your working. | | | | | |
| | | | | | | |
| | | | | | | |
| | (1 mark) | | | | | |
| | Final answer(1 mark) | | | | | |
| 5 (c) | Give one development in the design of hard disk drives that has enabled this increase in storage capacity. | | | | | |
| | | | | | | |
| | | | | | | |
| | (1 mark) | | | | | |
| 5 (d) | If you are considering purchasing a high-end desktop or laptop you might be offered the option of a solid-state drive (SSD) rather than a traditional hard disk drive. | | | | | |
| | A solid-state drive is a data storage device that uses solid-state memory, similar to that in USB flash drives (memory sticks), to store data that is accessed in a similar way to a traditional hard disk drive. | | | | | |
| | Ignoring any differences in price and assuming that both drives have the same capacity, state two reasons why you might choose the solid-state drive. | | | | | |
| | Reason 1 | | | | | |
| | | | | | | |
| | Reason 2 | | | | | |
| | (2 marks) | | | | | |
| | (2 marks) | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

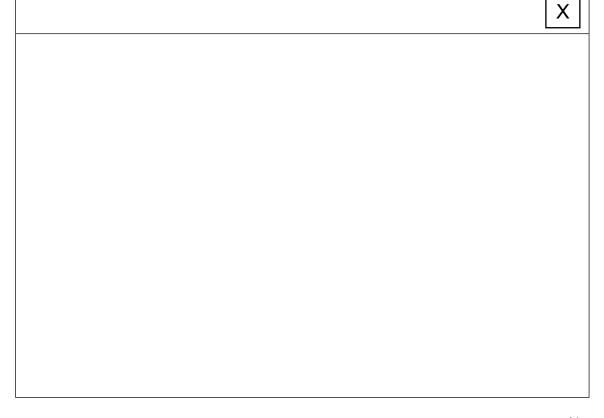

| 6 (a) | Explain the difference | es between the World Wide Web and the Internet. |
|-------|-------------------------------------|--|
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | (4 marks) |
| 6 (b) | Maior parts of the In | ternet run on a packet switched network. |
| - (-) | | e term packet switching? |
| | , | , |
| | | |
| | | |
| | | |
| | | (2 marks) |
| 6 (c) | A packet being sent 12.23.45.89:80. | across the Internet may contain the details of a socket, for example |
| | Complete the table trepresents. | pelow to explain what each part of the socket in the table |
| | Part | Represents |
| | 12.23.45.89 | |
| | 80 | |
| | | (2 marks) |

7 Figure 2 shows the HTML (Hypertext Markup Language) for a web page.

Figure 2

7 (a) With reference to the contents of **Figure 2**, draw a diagram in the space below to show how this web page would appear on a screen when viewed through a web browser. If necessary, use labels to make your diagram clear.

(4 marks)

| 7 (b) | Style rules defined in an external style sheet are to be used to control the look and layout of the page for which the HTML code is provided in Figure 2 . |
|------------|---|
| 7 (b) (i) | One of the style rules is: |
| | <pre>p { font-family: Arial; color: blue; }</pre> |
| | Describe the effect of this style rule on the web page. |
| | |
| | |
| | (1 mark) |
| 7 (b) (ii) | The following HTML code is added to the body of the page. |
| | <div id="header">Welcome to the school library</div> |
| | Write a style rule so that only the text 'Welcome to the school library' displays as green coloured text with font size 36 point. |
| | |
| | |
| | (3 marks) |
| | |

Turn over for the next question

| 8 | Students often search online for music files and then download them to their computer, mobile phone or music player. |
|-------|---|
| 8 (a) | State the full name of the law that students might have broken by downloading music files in this way. |
| | (1 mark) |
| 8 (b) | State two arguments against music being available for free on the Internet. |
| | Your answers should not refer to the law asked for in part (a). |
| | Argument 1 |
| | |
| | Argument 2 |
| | |
| | (2 marks) |
| | (2 marks) |
| 8 (c) | |
| 8 (c) | (2 marks) Many websites now offer the ability to download music files which are without any DRM |
| 8 (c) | (2 marks) Many websites now offer the ability to download music files which are without any DRM (Digital Rights Management) protection. State two advantages to students of DRM-free files over files that have DRM |
| 8 (c) | (2 marks) Many websites now offer the ability to download music files which are without any DRM (Digital Rights Management) protection. State two advantages to students of DRM-free files over files that have DRM restrictions. |
| 8 (c) | (2 marks) Many websites now offer the ability to download music files which are without any DRM (Digital Rights Management) protection. State two advantages to students of DRM-free files over files that have DRM restrictions. Advantage 1 |
